MEMORANDUM FOR: [REDACTED]

SUBJECT : ARGO Requirements

1. Reference the attached memorandum from Dr. Martin with notes on the July ARGO meeting and briefing. The tone of the memorandum might lead one to believe [REDACTED] will provide considerably more coverage for routine ARGO requirements than has been possible in the past. Although it probably will provide a higher level of satisfaction of some ARGO requirements, I believe a degree of caution and constraint on its application as an answer to a wide range of ARGO requirements.

2. The briefing on system capabilities is certainly in order, however, I would recommend you attend this meeting, if at all possible, to maintain realism in the requirements area.

I feel the same impression could be left with other ARGO members at the 28 July briefing and COMIREX should temper this impression to some extent while still recognizing the increased capabilities to contribute to ARGO requirements.
